

Tom Brindle Technology Award 2024

The Tom Brindle award is an acknowledgement of technical contributions to 911 services in Indiana. Tom was a thought leader for 911 in Indiana, providing guidance, ideas, and leadership on how to use technology to improve 911 services for our citizens. The parameters for this award are nearly limitless, we are seeking individuals or agencies that have used technology in some form to improve public safety services within the State of Indiana. Contributions to 911 services can be but are not limited to deployment of new systems, software, policy, organization and or procedures that improved 911 services utilizing technology. We are excited to hear and share the amazing ways you serve and protect your communities.

INdigital sponsors this award and will access the technical contributions to the 911 Industry. Any PSAP or individual is eligible by submitting the form below.

1. Your nominee's first and last name.
2. Your nominee's county of residence.
3. Please describe how your nominee has furthered the goal of moving the 911 Industry forward at a local or state level. (Maximum 250 words).
4. Additional Information.
5. Your Name, Agency, phone number and position who is submitting the nomination.
