

Tom Brindle Technology Award 2026

The Tom Brindle Award is an acknowledgement of technical contributions to 911 services in Indiana. Tom was a thought leader in 911 in Indiana, providing guidance and ideas on how to utilize technology to improve 911 services for our citizens. The parameters for this award are nearly limitless; we are seeking individuals or agencies that have used technology in some form to improve public safety services within the State of Indiana. Contributions to 911 services can include, but are not limited to, the deployment of new systems, software, policies, organizations, and/or procedures that improve 911 services through technology. We are excited to hear and share the amazing ways you serve and protect your communities. INDIGITAL sponsors this award and will assess the technical contributions to the 911 Industry.

Any PSAP or individual is eligible to submit the following information on department letterhead:

1. Your nominee's first and last name.
2. Your nominee's government employer..
3. Please describe how your nominee has furthered the goal of moving the 911 Industry forward at a local or state level. (Maximum 250 words).
4. Any additional information you wish to include.
5. Your Name, agency, phone number, and position, who is nominating this person.
